FOREWORD

It is matter of immense pleasure for me to present this treatise containing the targets and goals of the District Police Layyah during the coming year and the mechanism to attain these targets in the form of “Annual Policing Plan 2023-24”. These plans set for the next years are thoroughly deliberated with all concerned officers keeping in view the demands of the

Layyah Police to provide protection to its citizens by upholding the law.

The prevailing social, economic and societal situation is deteriorating, inevitably engendering a mammoth pressure on police force to maintain stability in the society. To coup with new challenges, it is very essential that police planning must be modified on the daily basis. For a successful planning, the calculation of available and required resources whether human or material is very much necessary. In the Police annual plan all these matters are discussed.

We are determent to vanquish all social evils that are causing deterioration of society.

At the end, I am proud to be a member of this prestigious organization. I am also proud of the officers, officials and every member of police of this district. I also pay tribute to the martyrs of the Punjab police who sacrificed their lives in the line of duties and earned reverence and respect for the department. I am looking forward to working with my team in the coming year to keep the lives and properties of people safe.

I. Introduction

Article 32(4) of police order 2002 envisages that District head of police shall prepare an annual plan in which details regarding objectives of District police, Availability and utilization of financial and material resources during the year, targets as well as mechanism to achieve the targets are to be deliberated. District Annual report plays a pivotal role in decision making, managing the human and material resources, articulating the strategies and other ancillary activities carried out by District police in pursuance to protect lives and properties of the citizens. As it is truly said by veteran American author and radio speaker Earl Nightingale that *“All you need is the plan, the road map, and the courage to press on your destination”*, similarly roadmap is very necessary to set the targets and to get those targets accomplished with collaborative efforts. In compliance with the statutory requirement, the Annual District Plan 2022-23 is articulated after thorough deliberation and by focusing the upcoming requirements of the district. The prime and utmost objective of Layyah police is to provide not only protection but sense of protection to citizens by adopting proactive approach. Arresting the perpetrators and Proclaimed offenders in furtherance to get them scrutinized by investigation process of police and send them to courts of law within along with collected evidence so that such persons may be convicted by courts of law and society may be prevented by such ill minded criminals. It is always required by the governments and the civil society that police culture at police station level should be changed and it should be people friendly and polite. Strategies to make police, as a public friendly organization is also included in the priority list of this District. For accomplishment of desired goal, resources are inevitably required. The calculations of required resources has been carried out which is included in the plan 2022-23. The same plan is being submitted to the competent authority for its approval, please.
